### PROJECT SPOTLIGHT

SOLAR FIELD PREPARATION:  
HBB VISION PROJECT

### PRAISES & PRAYER REQUESTS

Movin', Movin', Movin'....  
Dirt, Dirt and MORE Dirt!

~As I sit and listen to back up beepers, bangs, and shouts, continue to pray for team safety at the work site. Matt learned to operate a bulldozer and backhoe. He is now training others. Girls can drive backhoes, too! (see photos)

~The job of leveling the area for the panel installation continues. The guys from College Park did make good progress on the control shed last week. That work continues. Thankful for their experience so Matt can delegate tasks to them and supervise others!

~We've had visits to market, an African grocery, and the Village of Light. Matt and I got to visit the beach in Lome in-between dropping a team off and picking up the next. ~We gained housemates this week- a dear couple we met here last October. On Day 2 for them, Eric discovered a 1/2 in of water in 1/2 our house after lunch! Gray water tank back-up (hopefully). Praising God nothing was on the floor to be damaged and that it was not a major problem to be repaired.

~Avery completed her project of decorating one of the MK classrooms for a teacher here who is home in the states until right before school resumes. They share a love for iced coffee, so there was an instant connection when they met last fall. ~Avery and I were blessed to help decorate for a retirement party for the Tuesinks who have served faithfully for over 30 years in Togo. I got to help with food prep, too! ~Avery & I depart Togo THIS Saturday & make it to Ohio on Sunday afternoon.
