Building His Kingdom One Project At A Time

## Share. Build. Serve.

As we welcome in 2019 and reflect back on 2018,  
we want to again thank you for your continued  
financial and/or prayer support.

We are humbled by your selfless and sacrificial dedication to our role  
with the ABWE Project Office and the calling God has placed on our lives...

*Building His Kingdom One Project at a Time.*

### Prayer Requests:

- \*Matt will be volunteering on a roofing project in FL 1/14-19.
- \* Matt and I will be attending the ABWE Project Office Summit 1/20-22, also in FL.
- \*The girls will be staying with Matt's parents at their condo in FL while Isaac stays back home in OH to play basketball.
- \*We continue to strive towards a goal of 50% of our monthly support by July 1 to attend mandatory training. Meanwhile, we continue to connect with potential partners and churches and complete required assignments.** All while keeping discouragement at bay.

### Praises:

- \*Matt has been able to meet with a group of Pastors at a monthly lunch for Bible study and fellowship.
- \*Isaac advanced rank in his Trail Life organization; this is a big accomplishment and his ultimate goal is to receive the freedom award, which is equivalent to the Eagle Scout rank in Boy Scouts.
- \*Rylie had her one year check up with her orthopedic surgeon. He said her graft and quad strength look good. She is beginning indoor soccer training this month.
- \*Avery was asked to be ball girl for the high school girls teams. She is traveling with the team and takes this role very seriously....folding shooting shirts and warm-up pants, filling water bottles, passing out water, eating popcorn. 😊

Matt has the privilege of volunteering THIS WEEK on a roof replacement project in Florida under the leadership of Bill Tobias from the ABWE Project Office. We are thrilled with the experience that this opportunity will provide. Matt is also blessed to be working along side a ministry partner from our home church, Scott Stephens, who is volunteering on the project also.

Matt has been collecting gear over the last few months to be prepared for the job....and jobs in the future. They started the project this morning, January 14, at 7am. Here a few pictures from Day 1 of the metal roof installation.
