PLANNING AND BUILDING WITH PURPOSE

Praises and Prayer Requests:

Praising the Lord for a successful survey trip to Nicaragua in May. Matt came home with blueprints for the existing buildings at the Ministry Center in Managua and has started working with an architect and structural engineer for future projects.

Matt heads to HBB (the hospital in south Togo) on Monday, June 29; he will return to the states on July 29 and make it back to Ohio on July 30. He will be working on a set of duplexes, eventually to be used for PAACS residency students with families. Click [HERE](#) to learn more about PAACS! May things at home remain uneventful for Sarah & Avery!

Grandparents?! 🤖

Yep! You read that right!! Matt and I are going to be grandparents for the first time! And Avery an auntie!

We are thankful for this little miracle of life and have been blessed to watch Rylie and Lance embrace becoming parents. The excitement builds as Rylie nears the end of her 2nd trimester. Please join us in praying Rylie, Lance and this precious little one through the rest of the pregnancy.

Guesses: boy or girl???
Find out [HERE!](#)

Upcoming HBB Trip:

A team traveled to HBB in May to begin work on the duplexes--clearing the land, leveling the ground, and pouring the foundation. The plumbing has also been started since then.

Matt will continue with the progress of these residences so the maintenance director can remain focused on the many needs that keep him busy & keep the hospital and other ministries running. Pray for relationship building with the work crew & that the gospel would be shared in word and conduct.

On the Horizon:

8/28-29 Matt & I will be at IHQ in Harrisburg, PA to represent abweconstruction at a 24-hr Demo. If you are interested in missions and feel God leading you in that direction, you should [check out a 24-hr Demo!](#)

Matt & I will be traveling to Normal, Illinois on September 11-12 to represent abweconstruction at their [One Day Missions Experience](#).

We will be spotlighting the project in Nicaragua in an upcoming newsletter. BUT, Matt will soon be looking to recruit a team to help with a roof repair as the first phase of the project in February! Reach out now if you have questions or might be interested in joining us.
